LLOYD
"Less Lethal or You Die"

This item has been developed to allow for safe realistic impact munitions training. LLOYD's super lightweight and mobile design allows you to take him just about anywhere. LLOYD can be placed on the PVC pipe stand or hung from the shoulder loops. Constructed of abrasion resistant 1000 denier Cordura nylon fabric for a long service life.

LLOYD can be easily removed from the stand and used in officer down drills. One real benefit is that he only weighs 9 lbs. The PVC stand breaks down into 3 parts that lay flat for convenient storage. Mesh openings in the bottom of the legs and arms allow water to drain out if it starts raining during training or if he needs to be washed off.

As he is shot over time he will need to be fed through the hole in his head. LLOYD's diet consists of shipping "peanuts/popcorn". Upon impact this material provides a great response similar to a live person. Use him to train and test your officers on proper shot placement.

Please Note - Shipping cost for LLOYD is higher than other items due to the box size that must be used. Average shipping runs from $30.00 to $50.00 per box depending on where you are located. Two LLOYDs with stands can ship in one box for this price.

ITEM # 1000-15
color - Orange or OD Green
Price - $199.95 each

Modular TearGas Mask/Hydration Pocket

Pouch is designed to carry a hydration pack in one compartment with a teargas mask in the other. A unique upside down pocket allows for rapid deployment of gas mask in times of need. This item will fit any tactical vest that uses the two inch on center snaps and velcro modular configuration.

Constructed of 1000 denier Cordura nylon fabric, YKK #8 & #10 nylon coil zippers with dual sliders, Mil Spec hook and loop and FASnap snaps.

Three sizes to choose from with extra room for even more equipment storage! Modular webbing versions are availiable for both 1" and 2" webbing systems.

ITEM # 5000-005
color - Black, OD Green, Camo
Price - $59.95 each
